

April 17, 1970

Dear Joshua,

I tried to get John to introduce a bill requiring all 17 and over boys to have a clap and dope inspection every month just like they do in the Army. Nobody says that the Army is infringing upon their freedom to contaminate others. Why civilians??????????

You are so right. All kids should have to furnish proof of health.

Yours for a just peace in Vietnam,

A handwritten signature in cursive script, appearing to read "George F. Jackson".
